* History of Formation and Development

Nam Dinh Textile Garment Joint Stock Corporation originated from Nam Dinh Spinning Factory, which was established by the French in 1889. In 1954, the factory was taken over by the State and reorganized into Nam Dinh Textile Complex Factory.

In June 1995, the Nam Dinh Textile Complex Factory was renamed Nam Dinh Textile Company under Decision No. 831/CNn-TCLĐ dated June 14, 1995, issued by the Minister of Light Industry.

In July 2005, Nam Dinh Textile Company was converted into Nam Dinh Textile One Member Limited Liability State Company under Decision No. 185/2005/QĐ-TTg dated July 21, 2005, issued by the Prime Minister. The company operated as an independently-accounted enterprise under Vietnam National Textile and Garment Corporation, now known as Vietnam National Textile and Garment Group (VINATEX).

On February 13, 2007, the Minister of Industry issued Decision No. 547/QĐ-BCN on the conversion of Nam Dinh Textile One Member Limited Liability Company into a joint stock company, operating under the Enterprise Law.

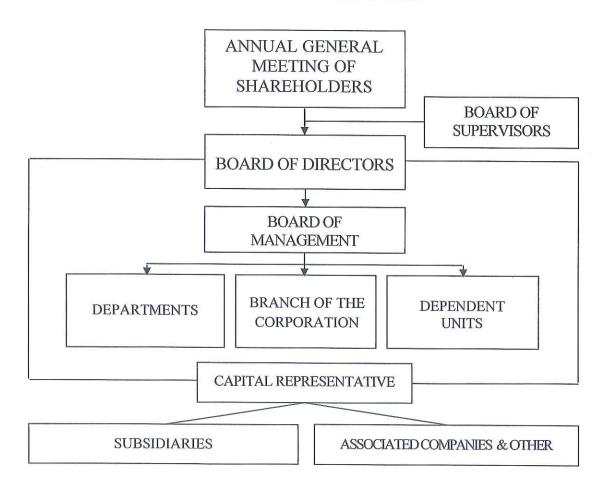

On December 25, 2007, the Department of Planning and Investment of Nam Dinh Province issued the first Business Registration Certificate to Nam Dinh Textile Garment Joint Stock Corporation with a charter capital of VND 136,000,000,000. Its main business activities include the production, processing, and trading of fabric, yarn, wool yarn, sewing thread, blankets, towels, garments, and more.

IV. Assessments of the Board of Directors on the Corporation's operation:

1. Assessments of the Board of Directors on the Corporation's operation

In 2024, amid extremely challenging conditions, the Corporation leveraged collective strength and made continuous efforts in leadership and management to enhance

production capacity and continue developing new products within the integrated value chain of Spinning - Weaving - Garment. Specifically:

- On Management:
- + Continued to innovate with advanced management models while making adjustments to improve production capacity at To Hieu Spinning Factory and Hoa Xa Spinning Factory.
- + Received additional senior personnel and direct management support for the Spinning segment from the Vietnam National Textile and Garment Group (Vinatex) and other leading enterprises in the industry.
- + Coordinated with the Spinning Business and Production Division of Vinatex to further improve the operational management system for the Spinning segment.
- + Implemented 5S and production management practices in the Dyeing segment to meet standards for new product manufacturing.
- New Product Development: In cooperation with Vinatex and experts from Coats Group, the Corporation successfully developed flame-retardant fabric. At the same time, it successfully passed the Coats Group's standard evaluation, meeting the conditions for production and export of flame-retardant products.
- Garment Sector Restructuring: Converted Garment Factory No.2 into Garment Company No.2 Limited Liability Company (Single Member LLC); restructured the Corporation's capital in Garment Joint Stock Companies No.1, No.IV, and No.5.

Despite these efforts, 2024 remained a difficult year due to ongoing geopolitical instability, which significantly affected global production and trade. Prices of raw materials and inputs were volatile and unpredictable; supply chains were disrupted or broken; interest rates and inflation remained high—resulting in major challenges in production, employment, and workers' livelihoods.

Members of the BOD, with their assigned responsibilities and powers, consistently demonstrated dedication and accountability, contributing positively to the Corporation's production and business development strategies.

The Board closely followed actual developments, capitalized on the Corporation's and individual members' strengths, and provided direction and oversight to the BOM in executing the goals and tasks approved at the 2024 Annual GMOS.

Although the Corporation's business results were ineffective and targets set by the 2024 AGM Resolution were not achieved, the efforts to maintain production, stabilize workers' lives, retain the workforce, and minimize losses represented significant endeavors-laying the groundwork for business recovery when difficulties are overcome.

2. Assessment by the BOD on the Performance of the Board of Management

The year 2024 continued to present numerous challenges due to geopolitical factors, resulting in business performance that fell short of expectations. However, under the leadership of the Executive Director and the BOM, the resolutions and decisions of the GMOS and the BOD were implemented effectively, with regular reporting on performance

to the BOD. Moreover, the BOM demonstrated a strong spirit of solidarity, responsibility, and dedication to their work. They remained committed to the Corporation's development strategy, proactively and flexibly addressing difficulties, paying constant attention to working conditions and the physical and mental well-being of employees. They strictly adhered to operational processes and regulations in line with the Corporation's Charter, Corporate Governance Regulations, and applicable laws. As a result, the Corporation was able to maintain stable business and production activities throughout the year, thereby ensuring employment, income, and livelihoods for its workforce.

3. Plans and Directions of the Board of Directors

The forecast for 2025 indicates another challenging year for the textile and garment industry. Therefore, the BOD is focusing on implementing several key tasks:

- Directing the BOM to achieve the business and production targets for 2025 and subsequent years.
 - Strengthening Market Development:
 - + Expanding the market, especially in exports, and diversifying the customer base. Coordinating closely with the departments of the Group and leading enterprises in the industry to further integrate into the overall supply chain of the textile and garment sector.
 - + Increasing consumption volume within the internal supply chain: Spinning Weaving, Towel Weaving, Dyeing, leading towards Garment.
 - + Promoting the production and export of flame-retardant products.
 - Implementing Advanced Production Management:
 - + Restructuring and further optimizing the organizational management structure of the Corporation and its subsidiaries for increased efficiency.
 - + Developing an advanced management system and applying digital transformation.
 - + Researching and applying advanced management models to enhance productivity, quality, and efficiency.
 - Investment and Development:
 - + Focusing on strengthening production capacity in the fields of Spinning and Dyeing. Researching investments to expand and enhance production capabilities in Weaving and Towel Weaving.
 - + Continuing to build the brand and invest in deepening the Garment sector.
 - + Maximizing the advantages of the services and supporting segments.
 - + Continuing with component projects when conditions in terms of resources and relocation schedules are met.
- Human Resource Planning: Planning human resources for investment projects of the Corporation and its subsidiaries. Developing suitable mechanisms to recruit young, highly skilled managers, rejuvenating the direct labor force, and focusing on training programs.

- Improving Working Conditions: Enhancing the physical and mental well-being of employees and improving welfare policies for the workforce.
